

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

* A great change was made in the death duties in 1881-2, and from that date Property assessed to Probate Duty constitutes the true record of personally changing hands by death.
 † In these two years the capital was abnormal in amount, the operation of the Land Act of 1881 and the fixing of Judicial Rents having led to delay in recovering duty due for former periods.

NOTE.—More precise information having been obtained as to the receipts of Local Authorities for the year 1882-3, it was discovered that in previous years large sums received in respect of the sale of gas and water by Urban Sanitary Authorities had been returned as receipts from Rates. The figures for previous years have been corrected so far as it is possible, and now show, as nearly as the accounts will allow, the receipts from Rates.

* For nine months only.
† In 1872-3, the expression "Urban Sanitary Authorities" is substituted for "Local Boards" and "Improvement Commissioners."

Note—This Return includes Channel Islands vessels, and Foreign-going vessels belonging to the Isle of Man for which crews were engaged at Ports in the United Kingdom.

The total number of persons employed includes foreigners, but not masters, nor Lascars and Asiatics serving under Asiatic Articles of Agreement.

The number of persons employed in the year is the sum of the number of persons forming the first crew of each vessel employed during the year.

The Home Trade includes vessels trading or going within the following limits, viz.: the United Kingdom, the Isle of Man, the Channel Islands, and the Continent of Europe between the River Elbe and Brest.

The Foreign Trade includes vessels trading or going beyond the above limits.

Some vessels known to be trading abroad are omitted from the Return, because no late information of the number of their crews could be obtained.

* The value of the Messages under Foreign Traffic, columns 8, 10, and 12, represents the Indian share of charge.
† The decrease is owing to the transfer of the Government Meteorological Reports from the Free List to the Paying List; the fact of there being no diminution in value of messages is traceable to Mail Steamer Reports transmitted under *predecessor* signal being charged under "Urgent" tariff.
‡ At reduced rates from 1877.
